

Building Work Updates

The construction work on our school building has made rapid progress recently and things are starting to look very different! The building work both on the playground and by the main entrance have developed a lot over the last few weeks and some classes will soon be moving to other areas of the school in order for the next stages of the project to be able to begin. With the development really beginning to take shape now, our excitement and anticipation is growing and we can't wait until we can enjoy our amazing new facilities!
