

The Ossie News Updates

Monday 28th January began a very interesting and exciting week in our school, when we came in to find a series of mysterious things had happened and there were lots of different 'crime scenes' in every year group! A number of things had gone missing across the school, some things had been mysteriously broken and there were even murder mysteries and a visit from an Alien spacecraft! In our classes we talked about what we could do to investigate and throughout the week we took part in a number of activities including chromatography, taking finger prints, examining handwriting and analysing CCTV and photographic evidence. Eventually, we solved the problems and at the end of the week all of the mysteries were solved and the culprits were revealed! With so many brilliant activities to take part in, our CSI investigation week was once again one of the most enjoyable weeks in school and gave us some wonderful opportunities to complete some wonderful pieces of writing for purpose. We already can't wait until the next one!
