

Cow on the Run

twinkl.com/newsroom/story/strange-but-true

Think

Where is this cow going? Which lane should it be in? Should it use its horn?

Respond

Read the 'Cow on the Run' news story. How many puns (word play based on multiple meanings) can you find? Can you think of any more cow related puns?

Solve

Bessie the cow is walking from Miami Beach to Fort Lauderdale, a journey of 44km. She walks at 4km per hour. How long will the journey take? She has walked 23.6km. How much further must she walk? How long will it take?

Reimagine

Draw a cartoon strip about the cow's adventures.

Discuss

Should animals be allowed to roam wherever they please? Why are animals kept in fields? What would happen if they could wander wherever they liked?

Discover

Fact: Cows have four stomach chambers to help process nutrients.

Question: How do humans break down food? Find out more about the organs of the human digestive system.

Cow on the Run **Answers**

How long will the journey take?

Children need to divide the distance by the speed:

$$44\text{km} \div 4\text{kmph} = 11 \text{ hours}$$

How much further must she walk?

She has walked 23.6 km so far:

$$44.0 - 23.6 = 20.4\text{km}$$

How long will it take?

Children must divide the distance by the speed:

$$20.4\text{km} \div 4\text{kmph} = 5.1 \text{ hours or } 5 \text{ hours and } 6 \text{ minutes}$$
