This will build up on their most secure existing table facts 2. Add in 3 x 6, 4 x 6 when step 1 is frequently recalled correctly and instantly 3. Build up with 6 x 6, 7 x 6, 8 x 6 4. When looking at 9 x 6, 11 x 6 and 12 x 6, children should: 5. Look at finding 10 x 6 and adjust 6. Be guided to remember what the last 2 numbers were in the sequence they learnt (66, 72) 7. Add in related division facts e.g. 2 x 6 = 12 so 12 divided by 6 = 2 and 12 divided by 2 = 6 	<p>6 Times Tables practise</p> <p>White Rose Maths https://whiterosemaths.com/homelearning/year-4/ Week 1 Lesson 2 <i>Write Decimals</i></p> <p>Watch the video clip for guidance and complete as much of the activity sheet as you can.</p> <p>Try to at least complete questions 1-4.</p> <p>If you feel confident, then move on to the rest. e.g. 6.<u>3</u>1 Write the value of the underlined digit.</p> 	<p>Times Tables Rockstars https://trockstars.com/</p> <p>Catch and Calculate – Fractions and Decimals</p> <p>Instructions Leader/parent throws a ball at the child. The child catches the ball and is given a fraction and has to give an equivalent decimal – he/she has 10 secs to give a correct answer. Correct answer = stay in the game. Wrong answer = Drop to one knee; for two wrong answers they drop to two knees; for three wrong answers they're out!</p> <p>Example: Throwing: 'Half.' Catcher: '0.5.'</p>	<p>Times Tables Rockstars https://trockstars.com/</p> <p>White Rose Maths https://whiterosemaths.com/homelearning/year-4/ Week 1 Lesson 4 <i>Order Decimals</i></p> <p>Watch the video clip for guidance and complete as much of the activity sheet as you can.</p> <p>If some questions are tricky, have a go but don't worry if you can't complete it all. E.g. Which is bigger: 0.4 or 0.9? 2.2 or 2.02?</p>  <p>Decimal Place Value</p>	<p>6 Times Tables Test – Focus on the ones you get wrong next time.</p> <p>Guess my number</p> <p>Think of a number for the children to guess. Players have to ask questions that have a yes or no answer in order to identify the number. E.g. Is it odd? Is it in the 5 times table?</p> <p>A more challenging version of the game would be to give players a range of clues, e.g. If the number was 50, they could give the clues 'It's an even number'. 'it's divisible by 2, 5, 10 and 25', 'it's equal to two quarters'.</p>
