

**Tangrams** are an ancient Chinese puzzle

Starting with a square made up of 7 pieces...  
you must arrange them to make a silhouette

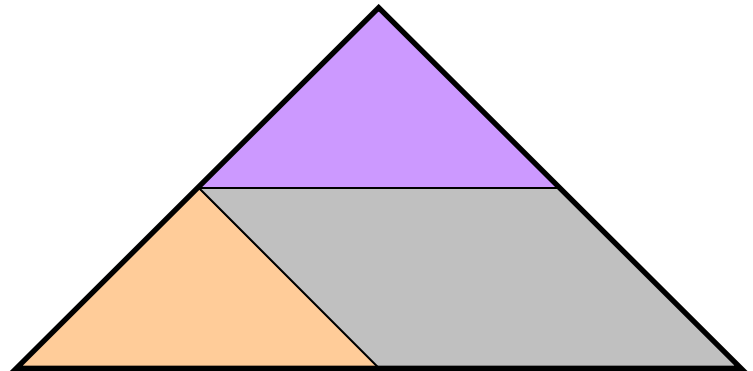

# Can you make...

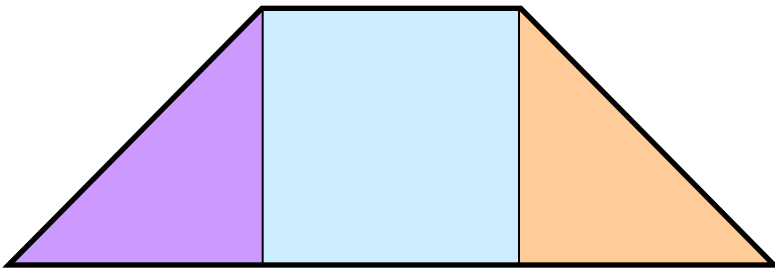

A rectangle using 3 pieces

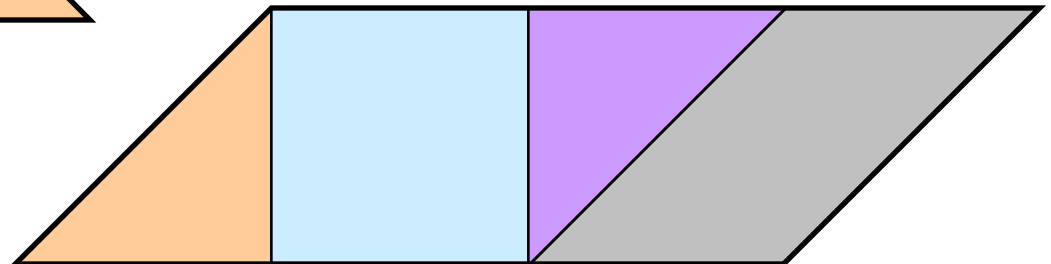

A triangle using 3 pieces

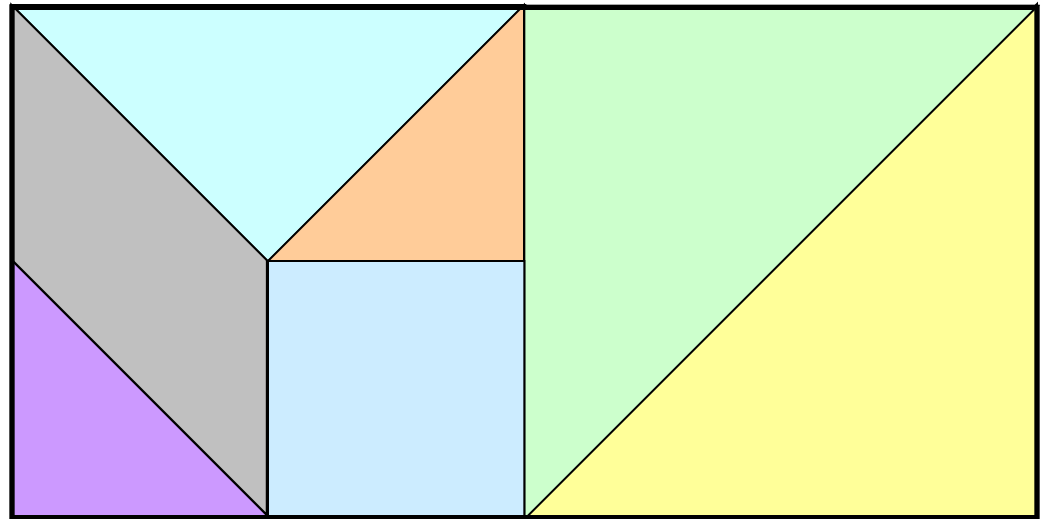

A trapezium using 3 pieces

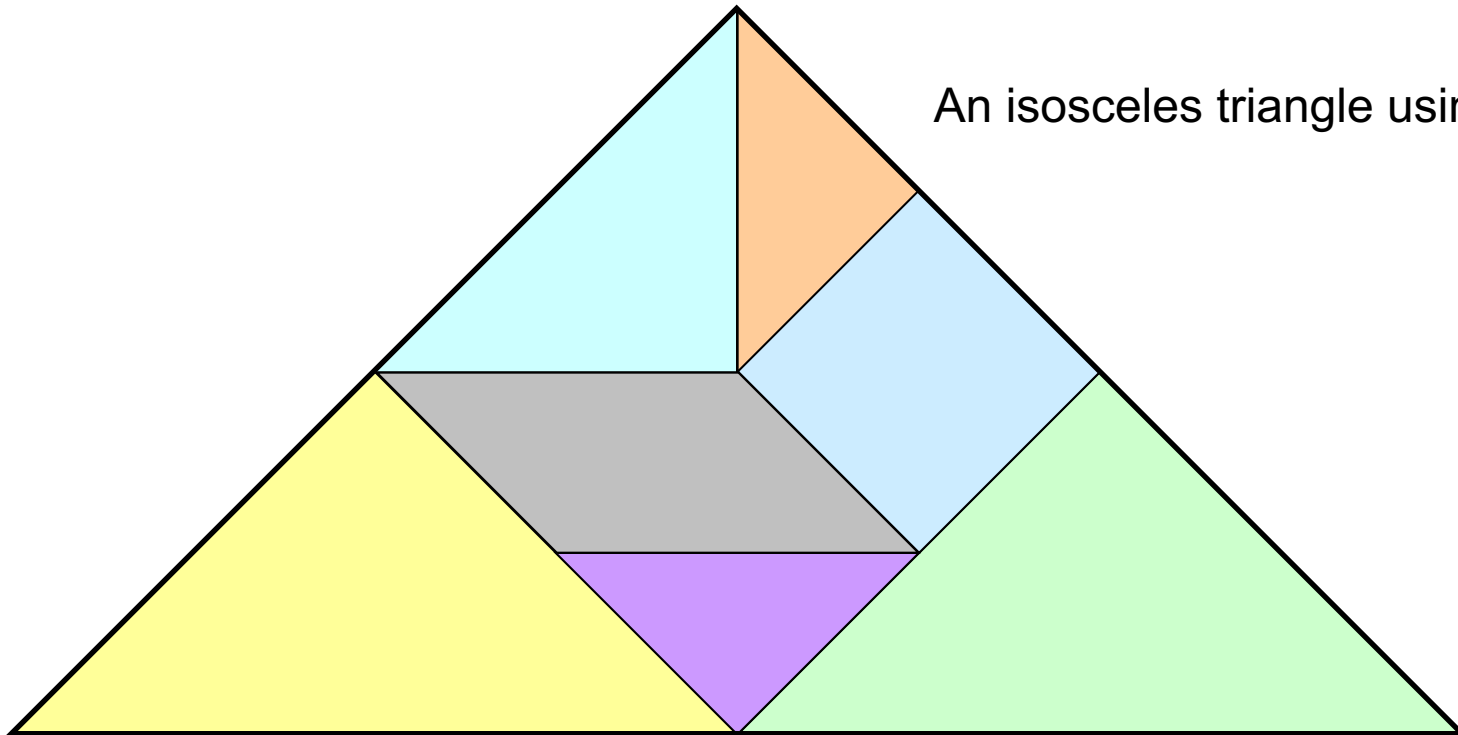

A parallelogram using 4 pieces

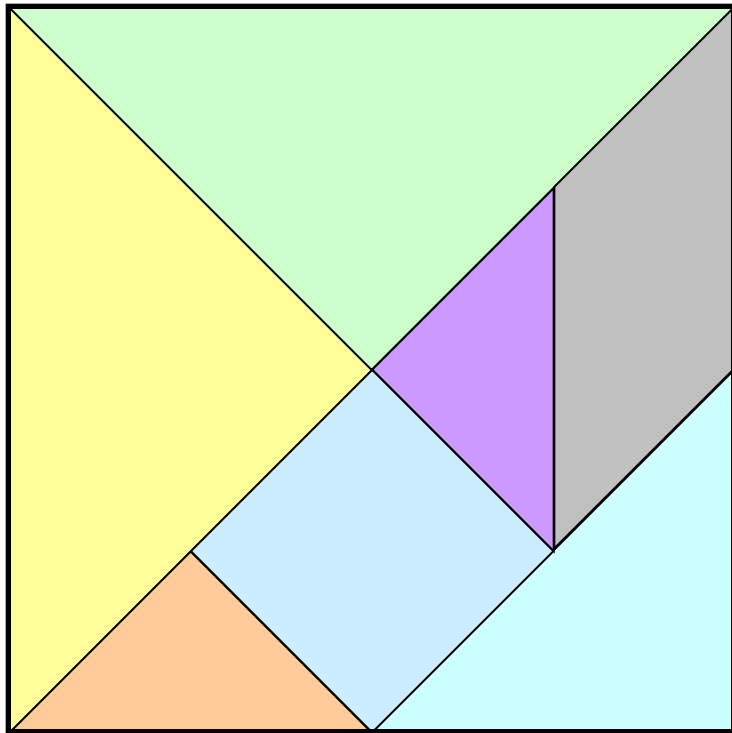

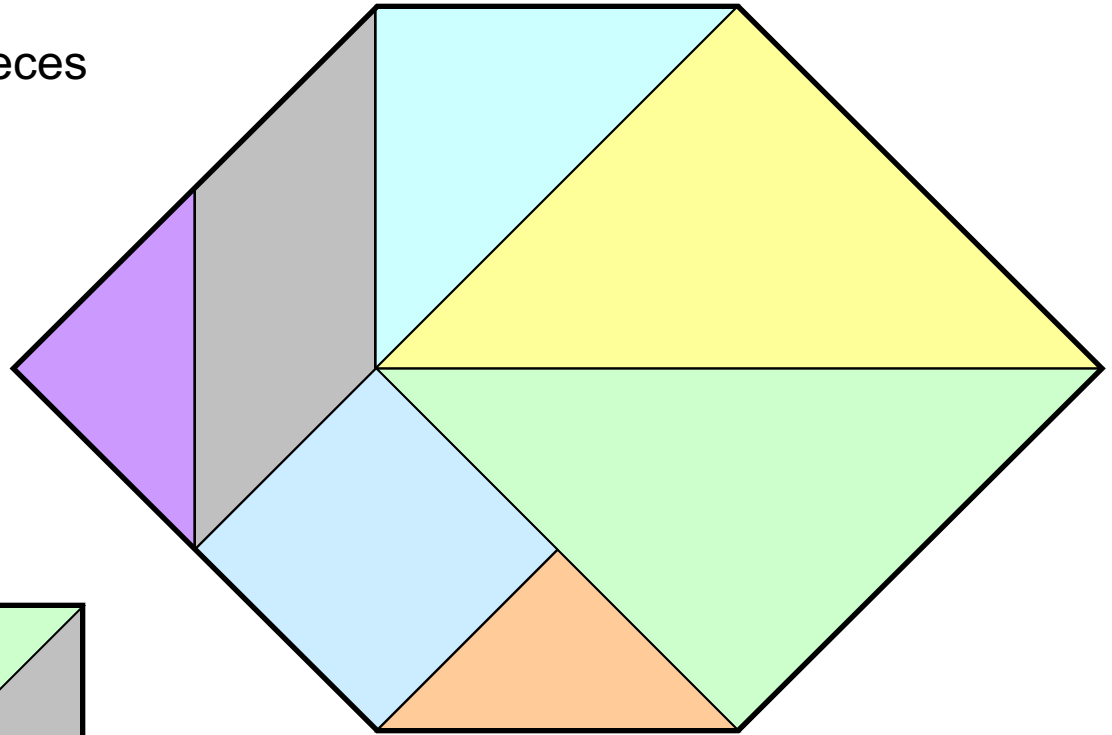

A rectangle using all 7 pieces

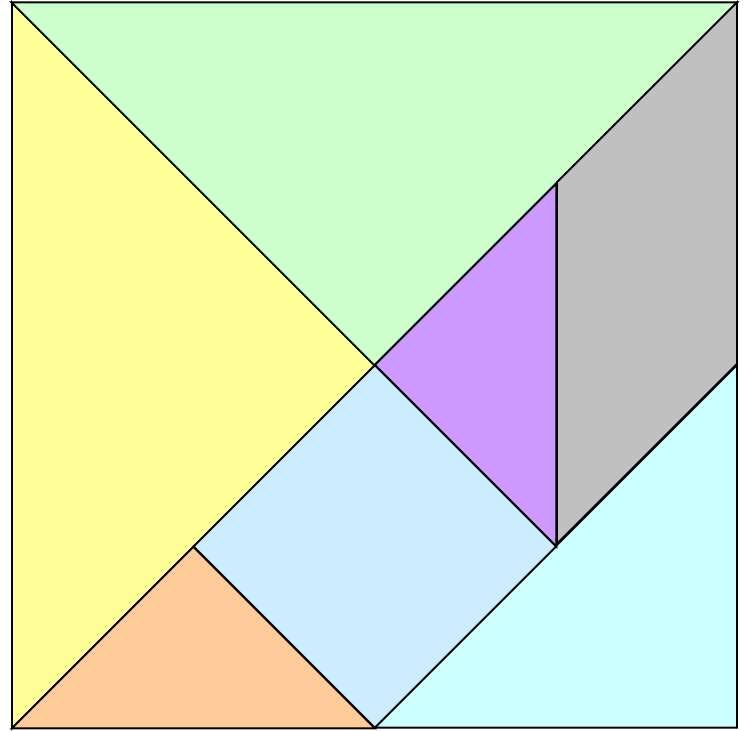

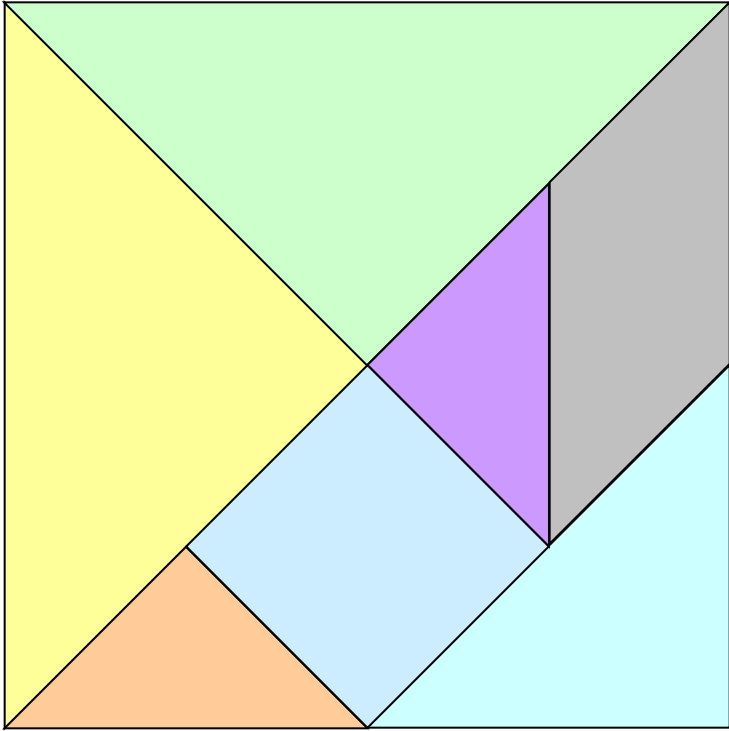

An isosceles triangle using all 7 pieces

A hexagon using all 7 pieces

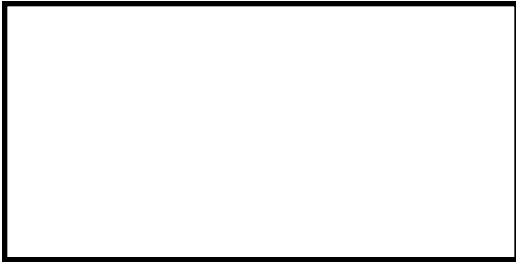

The original square using all 7 pieces!
