

Computing 16/10/20

Good Morning Year 5,

During our computing topic so far, we have looked at creating a flip book! Some of you may have already completed this whilst some of you may not have. Animation is created by producing a series of still images (hand-drawn, photos of objects, clay models), which are then quickly played in one sequence.

This is your chance to create your own animation flip book!

The first link shows you how a flip book is made, <https://www.bbc.co.uk/programmes/p009lb0q>

The second link is a step by step instruction guide (with pictures) which shows you how to create your own flip book.

<https://www.wikihow.com/Make-a-Flipbook>

Create your own flip book and if you can, try and record a video and bring your animation to life!
