Year Group	VEAD 2 2022 2024
Contraction of the second seco	VEAR 2 2023-2024 Objectives highlighted in yellow are 'Ready to Progress criteria' – children need to be secure on these before moving on
	PROBLEM SOLVING AND REASONING MUST BE INCORPORATED INTO ALL TOPICS FOR ALL CHILDREN.
<u>Autumn 1</u>	Number-Place ValueRead and write numbers from 1 to 20 in numerals and words (Y1).Read and write numbers to at least 100 in numerals and in words.Identify, represent and estimate numbers using different representations, including the number line.Recognise the place value of each digit in a two-digit number (tens, ones)Compose and decompose 2-digit numbers, using standard and non-standard partitioning (2NPV-1)Reason about the location of any 2-digit number on the linear system, including identifying the previous and next multiple of 10 (2NPV-2)Compare and order numbers from 0 up to 100; use > and < and = signs.Count in steps of 2, 3 and 5 from 0, and in 10s from any number, forward and backward.Use place value and number facts to solve problemsNumber-Addition and SubtractionSecure fluency in addition and subtraction facts within 10, through continued practice.(2 NF-1)Recall and use addition and subtraction facts to 20 fluently, (2AS-1)Show that addition of two numbers can be done in any order (commutative) and subtraction of one number form another cannot
	Recognise the subtraction structure of 'difference' and answer questions of the form, "How many more?" (2AS-2) Add and subtract within 100 by applying related one-digit addition and subtraction facts: add and subtract only ones or only tens to/from a two-digit numbers, using concrete objects, pictorial representations, and mentally, (2AS-3) Derive and use related facts to 100
<u>Autumn 2</u>	NumberAddition and SubtractionAdd and subtract within 100 by applying related one-digit addition and subtraction facts: add and subtract any 2 two-digit numbers.Add three 1-digit numbers.Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.Commeter - Shape
	Geometry – ShapeIdentify and describe the properties of 2-D shapes, including the number of sides, and linesymmetry in a vertical line. (2G-1)Compare and sort common 2-D and 3-D shapes and everyday objects. (2G-1)Identify and describe the properties of 3-D shapes, including the number of edges, verticesand faces. (2G-1)Identify 2-D shapes on the surface of 3-D shapes.Measurement - MoneyRecognise and use symbols for pounds (£) and pence (p); combine amounts to make aparticular value

Solve simple problems in a practical context involving addition and subtraction of n the same unit, including giving changeSpring 1Number-Multiplication and Division Calculate mathematical statements for multiplication and division within the multipli tables and write them using the multiplication (×), division (÷) and equals (=) sign Recognise repeated addition contexts, representing them with multiplication equation calculating the product, within the 2, 5 and 10 multiplication tables. 2MD-1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication solve problems involving multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectivesMeasurement-Length and Height	plication tions and and bles, bles, pn -2 ted
Spring 1Number-Multiplication and Division Calculate mathematical statements for multiplication and division within the multiplicatioes and write them using the multiplication (×), division (÷) and equals (=) sign Recognise repeated addition contexts, representing them with multiplication equations calculating the product, within the 2, 5 and 10 multiplication tables. 2MD-1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables. Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems contextsNumber - Subtraction Revisit subtraction objectives	tions and and bles, on 2 ted
Calculate mathematical statements for multiplication and division within the multiplicables and write them using the multiplication (×), division (÷) and equals (=) sign Recognise repeated addition contexts, representing them with multiplication equals calculating the product, within the 2, 5 and 10 multiplication tables. 2MD–1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts <u>Number - Subtraction</u> Revisit subtraction objectives	tions and and bles, on 2 ted
 tables and write them using the multiplication (×), division (÷) and equals (=) sign Recognise repeated addition contexts, representing them with multiplication equalicalculating the product, within the 2, 5 and 10 multiplication tables. 2MD–1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeate addition, mental methods, and multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectives 	tions and and bles, on 2 ted
 Recognise repeated addition contexts, representing them with multiplication equation calculating the product, within the 2, 5 and 10 multiplication tables. 2MD–1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectives 	and bles, on 2 ted
 calculating the product, within the 2, 5 and 10 multiplication tables. 2MD–1 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectives 	and bles, on 2 ted
 Show that multiplication of two numbers can be done in any order (commutative) a division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tal including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectives 	bles, o <mark>n</mark> D -2 ted
division of one number by another cannot Recall and use multiplication and division facts for the 2, 5 and 10 multiplication tak including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts <u>Number - Subtraction</u> Revisit subtraction objectives	bles, o <mark>n</mark> D -2 ted
 Recall and use multiplication and division facts for the 2, 5 and 10 multiplication taking including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts Number - Subtraction Revisit subtraction objectives 	o <mark>n</mark> – 2 ted
 including recognising odd and even numbers Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts <u>Number - Subtraction</u> Revisit subtraction objectives 	o <mark>n</mark> – 2 ted
Relate grouping problems where the number of groups is unknown to multiplication equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts <u>Number - Subtraction</u> Revisit subtraction objectives	–2 ted
equations with a missing factor, and to division equations (quotitive division). 2MD Solve problems involving multiplication and division, using materials, arrays, repeat addition, mental methods, and multiplication and division facts, including problems contexts <u>Number - Subtraction</u> Revisit subtraction objectives	–2 ted

Number - Subtraction Revisit subtraction objectives	s in
Revisit subtraction objectives	
Spring 2 Measurement-Length and Height	
Choose and use appropriate standard units to estimate and measure length/height	(m/cm to
the nearest appropriate unit, using rulers,	
Compare and order lengths and record the results using >, < and =	
Measurement- Mass, Capacity and Temperature	
Choose and use appropriate standard units to estimate and measure mass (kg/g);	
temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using scales,	
thermometers and measuring vessels	
Compare and order mass, volume/capacity and record the results using >, < and =	
Fractions	_
Recognise, find, name and write fractions 1/3, 1/4, 2/4 and 3/4 of a length, shape	, set of
objects or quantity	
Summer 1 Fractions	
Write simple fractions, for example $1/2$ of $6 = 3$ and recognise the equivalence of 2	/4 and
1/2	
<u>Time</u>	
Compare and sequence intervals of time	
Tell and write the time to five minutes, including quarter past/to the hour and drav	v the
hands on a clock face to show these times	
Know the number of minutes in an hour and the number of hours in a day	
Number -Addition and Subtraction	
Revisit addition and subtraction objectives	
Summer 2 Statistics	
Interpret and construct simple pictograms, tally charts, block diagrams and tables	
Ask and answer simple questions by counting the number of objects in each catego	ory and
sorting the categories by quantity	
Ask-and-answer questions about totalling and comparing categorical data	
Position and Direction	
Order and arrange combinations of mathematical objects in patterns and sequence	ŝ
Use mathematical vocabulary to describe position, direction and movement, includ	ling
movement in a straight line and distinguishing between rotation as a turn and in te	-
right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)	
Fractions	

	Revisit fraction objectives
<u>Continuous</u> <u>objectives</u>	The continuous objectives are woven into the teaching continually during the year. Children are given continual and regular opportunities to apply their knowledge to problem solving and reasoning. • use place value and number facts to solve problems • solve problems with addition and subtraction, using concrete, pictorial and abstract representations • recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems. • solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts • recognise, find, name and write fractions 1/3, 1/4, 2/4 and 3/4 of a length, shape, set of objects or quantity • write simple fractions for example, 1/2 of 6 = 3 and recognise the equivalence of 2/4 and 1/2.
<u>Key Basic</u> <u>skills to be</u> <u>taught</u> <u>continuously</u> <u>through the</u> <u>year</u>	Count across 100, forwards and backwards, in steps of 2, 3, and 5 from 0 and in tens from any number Read and write numbers to at least 100 in numerals and in words Recognise the place value of each digit in a two-digit number (tens, ones) Find 10 more and 1 less than a given number Recognise zero as a place holder Compare and order numbers from 0 up to 100; use <, > and = signs Partition numbers in different ways Round numbers to the nearest 10 and use this for estimation and calculation purposes Recall addition and subtraction facts to 20 and derive and use related facts up to 100 Explore inverse relationship between addition and subtraction and use this to derive new facts and to check answers Double any number between 1 and 30 and find all corresponding halves Add and subtract numbers mentally using the appropriate strategies and jottings Solve missing number addition and subtraction problems Solve missing number problems with multiplication and division Recognise, name and count and state different amounts of fractions eg ½, 1/3, ¼, 2/4, 3/4 Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times Find different combinations of coins to make a particular values Know relationships and simple equivalents between given units for length, mass and capacity. Identify and describe the properties of 2-D and 3-D shapes Identify angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)
