

Class Dojo at St Oswald's

What is Class Dojo?

Class Dojo is a 100% free, digital portfolio that allows us to share your child's learning with you. School staff will upload photos or notes to your child's online portfolio in class, which you will then be able to access on a mobile device, iPad, tablet, laptop or desktop - wherever you log in to Class Dojo. To see your child's work, simply log into your Class Dojo parent account and tap the story feed to see class posts, or the "kids" tab to see photos and notes sent only to your child's portfolio. The teacher will often suggest ways in which further learning can be supported at school and at home. You can "like" a post and leave a comment. You will also be able to upload photos or notes to your child's portfolio that you would like to share with us. We encourage you to do this. The children always love to share their news from home!

Home learning tips and tasks are also often shared via Class Dojo.

We use the free version of Class Dojo. There are upgrade options which are not necessary but will be promoted by the app. As a school we would never ask you to sign up to the paid version. There is no need to do this and we only ask you to join us on the free part of Class Dojo. Please do not input any card or payment details into Class Dojo.

Getting Started

If your child attended our Nursery last year, and you have already got a Class Dojo account set up, this should carry on into your child's new class and you will have already been moved over. If you are new to St Oswald's, or did not set up your account last year, you can do this now by following these 4 simple steps.

1. Download the ClassDojo app
2. Open app and tap 'Parent' to create a parent account
3. Enter name, email & create a password
4. Tap 'Add child (+)' and use the code attached.

If you have any problems with setting this up or require any further information, please see your child's teacher.
