

# Welcome to mouse club!

Supporting transition and home learning in the early years

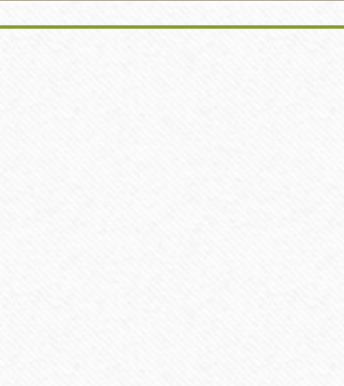

# What is mouse club?

- All nursery children will have their own mouse to look after. They will take him home today in a bag containing some more information. All of this stays at home. There is no need to bring the bag or mouse back to nursery.

- Stay and Play

Dates to follow

Mouse can be a fun way to motivate your child. To prepare for school your child should...

...Be toilet trained

Your child  
could show  
Mouse how  
they can  
use the  
potty or  
toilet

...Be physically  
active

Your child  
could take  
Mouse to the  
park

**...Be able to dress  
independently**

Your child can show Mouse  
how they get dressed

**...Talk confidently**

Your child could talk to  
Mouse about going to school

What if your child can already do all of these things?

**ClassDojo**

---

Children love praise. They also love showing their friends what they can do.

You can help us with this by sharing their achievements at home with us on their class dojo portfolio.

There is a lot of supporting information about a range of topics and guidance leaflets on screen time, toilet training, behaviour, mark making, bedtime and routines, talking to your child, reading with your child and much more. Many of these leaflets will be in your pack and we will send out more over the year but please ask nursery staff if we can help you with anything.

Any questions?  
Come and chat with  
any of the nursery team.
